LAWS RELATING TO TRUST FUNDS**Chapter 51, Revised Laws of N. H.**

19. In General. Towns may take and hold in trust gifts, legacies and devises made to them for the establishment, maintenance and care of libraries, reading-rooms, schools and other educational facilities, parks, cemeteries and burial lots, the planting and care of shade and ornamental trees upon their highways and other public places, and for any other public purpose that is not foreign to their institution or incompatible with the objects of their organization.

We would suggest that persons desiring to leave a sum of money, the income of which is to be used for the care of cemetery lots, should deposit at least \$200.00

At the present rate of interest, wherever possible, those funds, the principle of which is \$100.00 or less, should be increased.

Respectfully submitted,

SAMUEL W. GERRISH,

LESLIE R. TASKER,

ERNEST L. PINKHAM,

Trustees of Trust Funds,

The undersigned has this day examined the accounts of the Trustees of Cemetery Trust Funds, and found them correct.

July 12, 1948

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of Northwood:

Beginning this year, an advance in consolidation has been made by combining at the Ridge School all of Grades VII and VIII in the district. The resulting organization is as follows:

School	Grades	Teacher	Pupils
Brookside Primary	1-3	Annie C. Giles	30
Brookside Grammar	4-6	Doris C. Barnes	28
Ridge Primary	1-3	Lillian L. Williams	21
Ridge Grammar	4-6	Helen Guptill	29
Ridge Junior	7-8	Shirla B. Smith	32
Total			140

This arrangement, in respect to the children from the Narrows, increases the time that the teacher can devote to each grade by an amount ranging from 8 % to 25%. The increased transportation is taken care of by a cooperative arrangement between the Academy and district.

During the last five years, the elementary enrollment has increased from 101 to 140, or over 38%. This year for the first time, school census enumerators in the state have been required to list children from birth to five years of age. The numbers show considerable variation from year to year, but no startling overall increase. Coe-Brown Northwood Academy showed an enrollment of 76 students at the beginning of this school year.

Two workshops for elementary and secondary teachers in Supervisory Union No. 44 have been held in Barrington during the past year, one in Fine Arts (under the direction of Dr. Mildred M. Landis) March 25 and 26, and the other September 20-24 (under the direction of Miss Grace L. Felker and Dr. Lura O. Bruce) in Physical Education and Health. The directing personnel was furnished by the State Board of Education staff. Time devoted to these workshops was an allowable deduction from the required school calendar. The teachers were assiduous in their labors at the workshop, and the results have been evident in the classroom and playground activities of the pupils ever since. Teachers who took summer school or extension work this past season include Mrs. Giles (UNH), Mrs. Williams (Concord), Mrs. Coombs (LaSalle), and (of the Academy staff) Miss King and Mr. Colter.

Dr. Hilton C. Buley came from New Jersey to succeed Dr. Edgar Fuller as State Commissioner of Education. Dr. Fuller is now executive secretary of the Council of Chief State School Officers. Dr. Arthur S. Adams is the new president of the University of New Hampshire.

Miss Edna M. Quimby, who served as a teacher in Northwood schools for more than two score years, retired under the state teachers' retirement system at the close of school in June, 1948. She had been teaching Grades V-VIII at Brookside School.

Teacher changes remind us that teacher recruitment is the responsibility of all—teachers, parents, and community leaders. Of the 300 elementary teachers now needed in the state, only 23 candidates are expected to graduate from the N. H. teachers' colleges next June. Appropriate guidance should begin in the elementary grades, by interesting in this work any young people who show an ability to deal with people rather than things. Northwood should furnish at least one qualified elementary teacher per year to the state. Other scarce subjects are Home Economics, Trades-Industries, Mathematics and Science.

New equipment provided for the district this year includes two S. V. E. combination slide-film and film-strip projectors with screens. In addition to material available for loan or rental, a certain number of slides and rolls for use with these projectors should be purchased every year to build up a school visual library. The Supervisory Union has combined to purchase a

Maico Puretone Audiometer for discovering hearing loss, and the Massachusetts Vision Test for selecting those who should be referred to eye specialists. This equipment was recommended for purchase and use in the schools by the Health Services Division of the State Board of Education office, in consultation with a board of experts. The town Recreation Commission is also providing additional playground apparatus. All elementary pupils were taken on an educational trip to Benson's Animal Farm for a day. Such trips for enlargement of experience are a valuable feature of school life.

The Harvey Lake Women's Club has donated a wire recorder with microphone to the Academy. This equipment is available and has already been used by the elementary schools. The Club also sponsored the school dental clinic, as usual.

Mrs. Esther B. Coombs continues as musical instructor in the grades. At Coe-Brown Academy, a commercial course has been added to the curriculum, including shorthand, typing, bookkeeping, junior business training, consumer education and salesmanship. The American Council on Education strongly recommends the Armed Forces Institute courses to any persons joining those services.

Preventive measures were featured in the school health work. Clinics arranged by the School Nurse, Miss Myrtle Fletcher, and carried on by Dr. Alfred D. Mihachik and others, included a dental clinic, in which the fluorine treatment was introduced, and a toxoid clinic, at which diphtheria and tetanus antitoxin were administered.

Many districts are transporting their high school pupils. Northwood is well situated for that service to be rendered. It is likely that encouragement in this direction may come from the state. A more adequate teachers' retirement law seems to be supported by practically all groups. This is embodied in the Pillsbury Bill. On the national level, federal aid to education without federal control is needed to meet the emergency in education and equalize opportunity throughout the nation. Special help is needed both from the federal government and the state toward a school building program. Industry and commerce spent 13 billions in 1948 for new plant facilities, whereas school building has been practically at a standstill for 10 years, in spite of increasing school populations. A more adequate tax program on the state level is needed, to spare the local com-

munities an unreasonable assessment burden. Adequate scholarship aid from public resources must supplement private means in order to finance in the later college and graduate school years the kind of minds that the country needs to keep it strong for defense and prosperity.

Respectfully submitted,

CHESTER W. DOE.
